DR. CARY D. NELSON

Dr. Cary D. Nelson is a board certified family practitioner, and is currently the Medical Director at Skinetics in the City of Orange. A Southern California native, Dr. Nelson earned his undergraduate degree at the University of California, Los Angeles and studied medicine at the Universidad Autonoma de Guadalajara and New York Medical College; he completed his residency training at the USC-PIH Family Practice Program in 2005, serving as co-chief resident.

Dr. Nelson has studied under the comprehensive tutelage of R. Stephen Mulholland, M.D. and Patrick Bitter Jr., M.D., two pioneers in the fotofacial technique. Dr. Nelson is also certified in Botox® Cosmetic, multiple dermal fillers (Juvéderm®) and in facial volumizers (Radiesse®/Voluma®). Furthermore, he specializes in IPL and various laser techniques for skin rejuvenation and wrinkle reduction.

Dr. Nelson is dedicated to providing safe and effective aesthetic procedures utilizing leading edge technology and has begun studying various anti-aging medicine applications.

INJECTABLES

Botox® Cosmetic is approved for the temporary treatment of moderate to severe lines between the brows which relaxes dynamic facial wrinkles such as frown lines and crow's feet. **\$11 / unit**

Juvéderm® XC is indicated for injection into the mid to deep dermis for correction of moderate to severe facial wrinkles and folds or areas lacking volume. Juvéderm® XC smoothes out moderate to severe wrinkles and folds around the nose and mouth, like parentheses. **\$525 (Ultra) / syringe**
\$550 (Ultra Plus) / syringe

Juvéderm Voluma® XC injectable gel is the first and only filler FDA-approved to instantly add volume to the cheek area. It gives you a subtle lift, helping to restore contour and a more youthful profile, for up to 2 years, in patients over the age of 21. It's different than Juvéderm®XC and works on a different area of the face. **\$850 / syringe**

LASER TREATMENTS

Fractional CO2 The ultimate in skin tightening, wrinkle correction and overall rejuvenation. Not suitable for all skin types. **Consultation is Required**

Fractional Erbium Non-ablative resurfacing for mild to moderate wrinkles, pore correction and skin texture. Minimal downtime with outstanding results. **\$600 & up / treatment**

Skin Rejuvenation Non-invasive, intense pulsed light (IPL) treatments to reverse signs of photo aging such as minimizing brown spots, freckles, broken capillaries and rosacea. This state-of-the-art technology actively firms the skin revealing a brighter, smoother, more youthful complexion. **\$450 / treatment**

Skin Tightening Ideal for targeting those tell tale signs of aging including jowl and neck laxity, sagginess under the eyes, droopy brow lines and nasolabial folds. **\$450 / treatment**

ThermiSmooth™ treatments are non-invasive skin smoothing treatments that delivers precise, gentle epidermal heating to tone the skin. ThermiSmooth is performed using a specially designed thermistor regulated hand piece, which is supplied with the ThermiRF™ system, treatments are repeated several times to achieve the desired cosmetic result. **Consultation is Required**

ThermiTight™ is the name of a peer-reviewed protocol described as "thermistor-controlled subdermal skin lightening." The ThermiRF™ system is used along with a tiny SmartTip™ thermistor probe, which is inserted under the skin to heat subdermal tissues to a user selected specific temperature. Most Injectable RF treatments are one-time procedures that can be completed in less than an hour. **Consultation is Required**

DERMASWEEP™

Exfoliation, circulation, rejuvenation! The DermaSweep™ is an innovative particle-free skin revitalization system that uses bristles and vacuum for a more effective exfoliation, as well as circulation. After the dead skin is removed from the exfoliation process, the skin is then infused with a specific solution like Vitamin C or Salicylic Acid for total skin rejuvenation. Each treatment is customized depending on skin type and desired level of exfoliation. The DermaSweep™ treats early signs of aging, fine lines, hyperpigmentation, photo-damage, acne, acne scars, surgical scars and dehydrated skin. **\$175**

LIGHT COMPLEXION PEEL

Addresses environmentally damaged skin types utilizing hydrogen peroxide, glycolic, lactic and salicylic acids. This unique treatment is customized to meet the needs of all skin types. **\$125 & up**

MICROPEEL®

The MicroPeel® is a safe and effective procedure that can be customized to meet the needs of all skin types. This unique 3-step process removes the dead cellular layers with either Dermaplaning or an Enzymatic exfoliation. Next, an AHA solution is applied to the skin to help free pores of impacted debris. Finally, Cryogenic Therapy is performed to help relieve inflammation and cool the skin. **\$125**

CRYOGENIC THERAPY (CO2)

As used in the MicroPeel® procedure, Cryogenic Therapy is known for it's exfoliating and anti-inflammatory reducing benefits. *Can be added on to any treatment. **\$35**

DERMAPLANING

As used in the MicroPeel® procedure, Dermaplaning can be added on to any existing treatment for a deeper level of exfoliation. *Can be added on to any treatment. **\$35**

MICROPEEL PLUS®

The MicroPeel Plus® is an in-office procedure that will help smooth fine lines and even skin discoloration while reducing the appearance of acne scars and environmental damage to the skin. Available in two concentrations of salicylic acid, the MicroPeel Plus® can be tailored to fit different skin types and goals. **\$125**

BODY PEELS ARE AVAILABLE AND ARE INDIVIDUALLY PRICED. ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.
